Re: MB Docket No. 07-148:
47 CFR § 27.20(b) Digital Television Education Report

Dear Ms. Dortch:

On November 26, 2008, Cellco Partnership d/b/a Verizon Wireless ("Verizon Wireless") was granted licenses in WCS Block A in the 698–704 MHz and 728–734 MHz bands, WCS Block B in the 704–710 MHz and 734–740 MHz bands, and WCS Block C in the 746–757 MHz and 776–787 MHz bands. As required by 47 CFR § 27.20(b), Verizon Wireless is filing its first quarterly Digital Television Transition Education Report. Verizon Wireless has not yet begun to offer service on any of these recently issued licenses. Accordingly, during the previous quarter ending December 31, 2008, Verizon Wireless did not make outreach efforts to educate consumers about the transition from analog broadcast television service to digital broadcast television service.

Sincerely,

A handwritten signature in black ink that reads "John T. Scott, III". The signature is written in a cursive, slightly stylized font.

John T. Scott, III
